

All Temp Windows Vinyl Patio Door

All Temp's vinyl patio doors will enhance the look of your home for years to come. They will never corrode, rust, rot, peel or flake, and they never need painting. These patio doors will help reduce costly energy bills by combining their unique design with a high-performance glass package that keeps your home warmer in winter and cooler in summer, resulting in year-round comfort. All Temp's patio doors utilize strong, durable hardware that exceeds the toughest forced entry resistance test in the industry.

Duralite® warm edge insulating glass spacer for enhanced resistance to heat transfer resulting in improved energy efficiency and reduced condensation

Aluminum reinforced for better strength and security

Glazing 1" overall for maximum thermal performance

Fusion-welded corners and multiple hollow chambers for watertight strength and energy efficiency

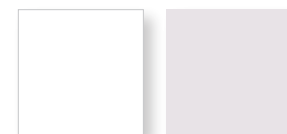

Interlocking panels for protection from wind and water

Low-E glass for increased energy efficiency and UV protection

Insulating Glass Features:

- All units feature high performance insulating glass (1" insulating glass standard).
- Available in LoE², LoE³, Tinted, and Obscured.
- Left and right glass units are the same size for ease of replacement.
- Other available options; Argon gas fill and mini blinds between the glass.

Available colors:

White

Sandstone
